

# Timberland Alpacas

## Hemingway's Hemiaccoyo Grand Slam

Grand Slam is a white, full Hemiaccoyo male with an impeccable pedigree that is strongly directed to Hemingway's genetics. A grandson of Victor and Sara's Sahara, Grand Slam's sire, Peruvian Hemingway, is the most renowned sire in our industry. His dam, Victor's Hemiaccoyo Valia, is herself a Champion. Grand Slam is TIMBERLAND ALPACAS' very last son from Hemingway, and is also one of the youngest Hemingway male offspring in the country. His dam, a Hemingway granddaughter, was very purposefully bred to her grandfather to create the perfect line breeding of Hemingway genetics. One look at his impressive size and presence, and it is evident that here is no loss of hybrid vigor in this young male. Grand Slam may be the only herd sire in this country that can boast those genetics. He is a fitting tribute to TIMBERLAND'S long and fruitful ownership of Hemingway, since TIMBERLAND owned the very first Hemingway male offspring in the U.S., and is now privileged to own

one of the very last. Grand Slam is just starting his breeding career. Like his sire, Grand Slam's powerful attributes include fineness and consistency of micron (17 at first and second shearings), strength of bone and conformation. Added as a huge bonus is the inheritance of staple length and physical size and presence of his dam, Victor's Valia, "Slam", as he is affectionately called, is one very impressive looking male. Show Record: 2007 AWE (Level V) 1<sup>st</sup> Full Fleece Senior Juvenile White Males (out of 9); 2008 AWE (Level V) 1<sup>st</sup> Full Fleece Yearling White Males (out of 13); 2008 CABA (Level IV) 3<sup>rd</sup> Full Fleece Yearling White Males (out of 13), 2009 Alpacalooza (Level V) 1<sup>st</sup> Full Fleece Two Year and Older White Males (out of 9), and finally, 2009 White Male Champion, Alpacalooza (out of 54). Slam will begin his breeding at TIMBERLAND this spring.
